3. Assumption of Risk

To the fullest extent permitted by applicable law, you knowingly and voluntarily assume the inherent risks associated with participating in athletic testing, training, workouts, drills, and other physical activities performed in connection with My Combine.

You understand that My Combine cannot inspect or control the location where you train and cannot determine whether your environment is safe.

You are responsible for inspecting your surroundings and determining whether you have adequate space, appropriate footwear and equipment, a suitable training surface, and safe environmental conditions before beginning an activity.

The Services do not provide medical advice, medical diagnosis, medical treatment, physical therapy, or individualized medical clearance.

My Combine does not determine whether you are medically or physically fit to exercise.

You are responsible for determining whether participation is appropriate for you and for seeking advice or clearance from an appropriate qualified healthcare professional when necessary.

You should stop exercising and seek appropriate medical attention if you experience symptoms such as chest pain, fainting, severe dizziness, unusual shortness of breath, significant pain, loss of coordination, or other concerning symptoms.

6. Performance Results and Scores

My Combine may provide timing results, personal records, performance history, scores, benchmarks, comparisons, categories, or other athletic-performance information.

These results are intended for athletic performance and informational purposes.

They are not medical evaluations, medical diagnoses, guarantees of athletic ability, recruiting evaluations, or guarantees of future performance.

Performance measurements may also be affected by timing method, device behavior, surface, environment, setup, user input, equipment, and other conditions.

7. Equipment and Timing Technology

My Combine may support or interact with phones, timing controls, remote timing hardware, sensors, or other equipment.

Technology can malfunction, disconnect, produce inaccurate measurements, experience latency, or otherwise fail.

You should not rely on My Combine or associated technology as a safety device or emergency system.

Timing equipment, phones, cones, and other equipment should be positioned so they do not create hazards during physical activity.

8. Release and Limitation of Liability

To the fullest extent permitted by applicable law, you agree that My Combine LLC and its owners, officers, employees, contractors, affiliates, agents, and service providers will not be liable for injuries, losses, damages, or claims arising solely from the ordinary and inherent risks of voluntary participation in physical activities performed through or in connection with the Services, except to the extent liability cannot lawfully be waived, released, or limited.

Nothing in this Agreement is intended to waive, release, or limit liability that cannot legally be waived, released, or limited under applicable law.

9. No Guarantee of Safety

Safety information, instructions, demonstrations, recommendations, warnings, or other content provided by My Combine are intended to help users make informed decisions.

They cannot eliminate the inherent risks associated with athletic activity.

Following an instruction or recommendation does not guarantee that an activity will be safe or injury-free.

10. Minors

If a minor is permitted to use My Combine, a parent or legal guardian is responsible for reviewing the Services, determining whether participation is appropriate, supervising the minor when appropriate, and providing any consent required by applicable law.

Nothing in this Agreement should be interpreted as creating a waiver or release concerning a minor that would be unenforceable under applicable law.

11. Emergency Situations

My Combine is not an emergency service and does not monitor users during workouts or testing.

If you believe you are experiencing a medical emergency, stop activity and seek immediate assistance through appropriate local emergency services.
